

# Paper Plate Angel

Step 1: Using a pencil, draw the gray lines on your paper plate. Then cut along those pencil lines.

Step 2: Decorate your angel. For the head and dress areas, decorate on the top side of the plate. For the wing areas, decorate on the bottom side of the plate as they will be flipped around when the plate is folded.

Step 3: Gently curve the dress half of your plate into a cone shape. Overlap the wings and insert the partial cut on the left side into the partial cut on the right side. Secure with tape.
