

# St. Joseph

## Holy Family

### Ornament/Plaque

**Step 1:** Select a piece of wood and a picture of the Holy Family which will fit on the wood. Old greeting cards are perfect for this project! Trim the picture so that it fits on the wood - you can have a little bit of wood showing around the edge or a lot of wood - the choice is yours!

**Step 2:** Brush a THIN layer of Mod Podge on the wood and stick the picture on top. Caution - Mod Podge is like glue so the picture will crinkle if you use too much.

**Step 3:** Press down and smooth the picture - make sure the edges are flat. Brush another THIN layer of Mod Podge on top of the picture to seal it.

**Step 4:** The Mod Podge will dry clear and you will have a nice decoration for Advent! Once the top side is dry, you might wish to adhere a bible verse or greeting card sentiment to the back side. If you selected a large piece of wood, you might like to use a plate stand to display it.
